H1: Steampunk Outfit Ideas for Women: 12 Complete Looks (With Prices)

Short answer: a complete steampunk outfit for women needs five things — a corset or a fitted vest, one styled layer, goggles, a brass accessory and shoes you can walk in. Start with a printed tee and the leather corset at **580,00 kr.**, or go straight to the full Victorian look at **1.300,00 kr.** Below are twelve complete outfits, every piece linked, and every price read from our own shop in DKK.

Every look below is a **complete outfit**: the pieces listed add up to something you can put on, not a mood board. One corset carries five of the twelve looks, so the cheapest way through this page is to pick the look you would actually wear and build outward from it. Prices were read from the live shop on 9 November 2026; the product page wins if a price has moved since.

1. The Airship Captain

The look people recognise from across the room. Goggles pushed up on the tall hat, brocade tailcoat over whatever you already wear, and nothing else needed: this is the cheapest complete costume on the page, and it is the one to buy first if you are only buying once.

- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- Time Traveler Top Hat with Goggles [https://steamgears.eu/go/483/] — **335,00 kr.**
- Victorian Vampire Tailcoat — Brocade [https://steamgears.eu/go/495/] — **265,00 kr.**
- **Total: 765,00 kr.**

It works because the same three pieces carry a photo, a party and a Tuesday — take the hat off and the coat still reads as clothing.

2. The Clockwork Duchess

Silhouette first. The leather overbust corset fixes the waist, the wine velvet frock coat gives you the length, and the goggles are the one prop that stops it reading as evening wear.

- Steampunk Overbust Corset — Leather Lace-Up [https://steamgears.eu/go/489/] — **400,00 kr.**
- Wine Red Velvet Tailcoat — Victorian Frock Coat [https://steamgears.eu/go/493/] — **435,00 kr.**
- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- **Total: 1.000,00 kr.**

Wear the coat open so the corset line stays visible; closed, it becomes a dress and loses the character.

3. The Gothic Aviator

The silver corset is the coolest piece we make and the hardest to style, so the rest of the look stays quiet: black hat, brass goggles, nothing shiny below the waist.

- Gothic Overbust Corset — Faux Leather, Silver [https://steamgears.eu/go/491/] — **435,00 kr.**
- Time Traveler Top Hat with Goggles [https://steamgears.eu/go/483/] — **335,00 kr.**
- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- **Total: 935,00 kr.**

It is the look for anyone who wants steampunk without brown leather.

4. The Casual Tuesday

A printed tee and the corset worn open as a layer, over jeans and boots. This is the outfit that survives a normal day and still photographs as steampunk at the end of it.

- Airship Armada — Vintage Engraving Tee [https://steamgears.eu/go/557/] — **180,00 kr.**
- Steampunk Overbust Corset — Leather Lace-Up [https://steamgears.eu/go/489/] — **400,00 kr.**
- **Total: 580,00 kr.**

If you own one steampunk piece, make it the corset; if you own two, add this tee.

5. The Raven Widow

Built around the Raven Chronometer print: black, brass and one bird. The corset keeps the shape and the goggles keep it from being a museum wall.

- The Raven Chronometer — Herbarium Art Print [https://steamgears.eu/go/967/] — **395,00 kr.**
- Steampunk Overbust Corset — Leather Lace-Up [https://steamgears.eu/go/489/] — **400,00 kr.**
- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- **Total: 960,00 kr.**

Hang the print behind you and the outfit has a background for the cost of a poster.

6. The Winter Mechanic

A hoodie and goggles. That is the whole look, and it is the one that gets worn from October to March because the printed layer is warm and the goggles fit over a beanie.

- Clockwork Octopus — Curiosity Hoodie [https://steamgears.eu/go/399/] — **335,00 kr.**
- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- **Total: 500,00 kr.**

It is also the cheapest way to test whether you like the aesthetic before spending on a coat.

7. The Vampire Aristocrat

Brocade tailcoat, silver corset, tall hat. Three pieces, all of them dramatic, which is exactly why it works for a ball or a Halloween party and nowhere in daylight.

- Victorian Vampire Tailcoat — Brocade [https://steamgears.eu/go/495/] — **265,00 kr.**
- Gothic Overbust Corset — Faux Leather, Silver [https://steamgears.eu/go/491/] — **435,00 kr.**
- Time Traveler Top Hat with Goggles [https://steamgears.eu/go/483/] — **335,00 kr.**
- **Total: 1.035,00 kr.**

Keep the shirt plain; the coat and the corset are already two statements.

8. The Sky Navigator

The astrolabe tee is the piece that makes this look: a navigation instrument printed on cotton, worn with the leather corset and goggles, reads as a uniform rather than a costume.

- Astrolabe Planisphere — Steampunk Tee [https://steamgears.eu/go/1282/] — **530,00 kr.**
- Steampunk Overbust Corset — Leather Lace-Up [https://steamgears.eu/go/489/] — **400,00 kr.**
- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- **Total: 1.095,00 kr.**

Add the pocket watch from the next look if you want one brass detail more.

9. The Tarot Seer

Two pieces and a lot of presence. The brass pocket watch pendant is the most detailed thing we sell, and against the wine velvet coat it does all the work — no corset, no hat, no goggles.

- Clockwork Seer — Brass Pocket Watch Pendant [https://steamgears.eu/go/940/] — **865,00 kr.**
- Wine Red Velvet Tailcoat — Victorian Frock Coat [https://steamgears.eu/go/493/] — **435,00 kr.**
- **Total: 1.300,00 kr.**

This is the look to wear when the invitation says cocktail, not convention.

10. The Museum Curator

The Clockwork Rose print, the brocade tailcoat and the tall hat: a person who catalogues things for a living and dresses like it.

- Clockwork Rose — Herbarium Art Print [https://steamgears.eu/go/965/] — **395,00 kr.**
- Victorian Vampire Tailcoat — Brocade [https://steamgears.eu/go/495/] — **265,00 kr.**
- Time Traveler Top Hat with Goggles [https://steamgears.eu/go/483/] — **335,00 kr.**
- **Total: 995,00 kr.**

It is the most "smart casual" of the twelve, and the one that works at a wedding with a sense of humour.

11. The Automaton Engineer

The Mechanical Elephant hoodie is the strangest print in the shop and the easiest to wear: brass lines on a dark ground, goggles on the head, done.

- Mechanical Elephant — Curiosity Hoodie [https://steamgears.eu/go/403/] — **335,00 kr.**
- Copper Pilot Goggles — Vintage Windproof [https://steamgears.eu/go/477/] — **165,00 kr.**
- **Total: 500,00 kr.**

Same price as the winter look, completely different character.

12. The Octopus Navigator

Curiosity hoodie plus the tall hat. The octopus reads as an engraving rather than a cartoon, which is why it survives being worn by an adult in daylight.

- Clockwork Octopus — Curiosity Hoodie [https://steamgears.eu/go/399/] — **335,00 kr.**
- Time Traveler Top Hat with Goggles [https://steamgears.eu/go/483/] — **335,00 kr.**
- **Total: 670,00 kr.**

Pair it with the goggles from look one and you have the full airship crew.

The five-piece rule

1. **A corset or a corset belt** — it sets the silhouette, and it is the piece that makes the rest look deliberate.
2. **One styled layer** — a tee, a hoodie or a tailcoat, never two.
3. **Goggles** — on the hat, around the neck or pushed up; they are the signal.
4. **One brass accessory** — a pocket watch, a pendant, the buttons on a coat. One, not five.
5. **Shoes you can walk in** — boots beat heels at every convention we have been to.

FAQ

How much does a complete steampunk outfit for women cost? Between **500,00 kr.** for a hoodie-and-goggles look and **1.300,00 kr.** for the full Victorian set, at the prices in our own shop. The tee-and-corset look at **580,00 kr.** is the cheapest one that still reads as steampunk from a distance.

What should I buy first? The corset, if you want one piece that changes every outfit you already own; the goggles at **165,00 kr.** if you want the cheapest piece that makes a photo look steampunk.

Can I wear this outside a convention? Yes — that is what the tee and hoodie looks are for. Printed cotton reads as a normal outfit; the goggles and the hat are what you take off at the train.

Do the pieces work for plus-size women? The lace-up corsets are adjustable by design, and the hoodies and tees are printed on standard unisex cuts. The winter and automaton looks are the two

easiest starting points because nothing is fitted.

How do I keep it from looking like a costume? Three steampunk elements, everything else in muted colours — brown, black, olive, brass. One brass accessory reads as style; five read as fancy dress.

Are the prices in kroner? Yes. The shop prices in DKK, and every amount on this page was read from the live catalogue on 9 November 2026. The product page wins if a price has changed.

Publishing notes

1. Replace the body of post 699; keep the slug and the post ID so the inbound links and the Rank Math history survive.
2. The live page still says «Prices are in USD» and carries about sixty dollar amounts; this copy replaces all of them with kroner from the live shop. The currency switch is the whole point of the replacement.
3. Keep the `[sg-shoprow]` and `[sg-buy]` shortcodes at the end of the body; they are rendered by the plugin, not by the theme.
4. Rank Math: title and description above, focus keyword `steampunk outfit ideas for women`, and FAQ schema from the six questions.
5. Two photos per look are still missing; the prints and the pendant photograph well on a plain background.
