Guide klar til publicering

corset (brief 24.–26/10)

Det sidste brief-definerede guide-mål som kataloget kan bære. Briefene 24.–26/10 havde corset-guiden som nummer et (prio 16, SERP'en er ren retail uden guides) og vest-guiden som nummer to — men butikken har ingen vest, og boot/spats-guiden fra 31/10 har heller ingen produkter, så de to kan ikke få det `/go/`-link som `docs/seo.md` §1 kræver. Corset-guiden har tre corsets og otte stylingdele at bygge på.

Produkt-ID'er kommer fra om-maerkning-dark-academia-2026-11-01.md, priserne fra valuta-og-priser-2026-11-02.md. Intet er gættet.

Det der venter på WordPress-adgang: to egne fotos, HowTo + FAQPage-schema i Rank Math, og publicering. Guiden har ingen eksisterende post-ID i repoet, så den skal oprettes som ny side.

Guide 4 — Steampunk Corset: How to Choose, Style and Wear One

H1: Steampunk Corset: How to Choose, Style and Wear One

A steampunk corset is not one garment with three prices. It is three different silhouettes, and choosing the wrong one is why most first corsets end up in a drawer after one evening. This guide is the one our brief asked for: how to pick by structure, what to put under it, what to put over it, and what the three corsets in our shop are actually for.

Quick answer: choose the brown lace-up (**$44.95**) if you want to wear it over clothes and be comfortable for hours; the overbust (**$59.95**) if the corset is meant to be the outfit rather than a layer; the silver PU (**$64.95**) if you want hardware and an evening look. Everything else — goggles, hat, coat — is chosen to match that decision, not the other way round.

1. Choose by structure, not by size

In one line: the corset's job is to change the line of the body, so the structure decides the outfit before the colour does.

- Victorian Lace-Up Corset Top — Brown [https://steamgears.eu/go/487/] — **$44.95**. A lace-up top with a soft structure: it goes over a shirt, under a coat, and stays wearable through a whole day. This is the one to buy first.
- Steampunk Overbust Corset — Leather Lace-Up Burlesque [https://steamgears.eu/go/489/] — **$59.95**. Structured overbust. It is the piece that reads as «character» in a photograph, and the one that

limits what you can wear over it.

- Gothic PU Leather Overbust Corset — Silver [https://steamgears.eu/go/491/] — **$64.95**. Hardware and a silver tone. The most evening of the three, and the one that pairs with the brass goggles rather than fighting them.

What we used: 487 for daytime looks, 489 for the evening, 491 when the outfit has metal elsewhere. All three are sized by the chart on their own product page — read that chart rather than ordering your usual clothing size, because a corset is fitted to the ribcage and the waist, not to the shoulder.

2. What goes under it

In one line: a cotton layer under the corset is the difference between a costume you can wear for six hours and one you take off after forty minutes.

Under 487: a tee [https://steamgears.eu/go/567/] or a thin shirt you already own. Under 489 and 491: a camisole or a fitted top, not a loose shirt — bulk under a structured overbust is what makes lacing uneven.

What we used: the tarot tee under the brown lace-up, a plain black fitted top under the two overbusts. Nothing under a corset should have seams running across the waistline.

3. What goes over it

In one line: a coat worn open is the single best way to make a corset look like clothing instead of lingerie.

- Medieval Assassin Coat — Gothic Split Jacket [https://steamgears.eu/go/497/] — **$39.95**. Split front, so the corset stays visible; long line, so the silhouette reads 1890 rather than 2026.
- Wine Red Velvet Tailcoat — Victorian Frock Coat [https://steamgears.eu/go/493/] — **$64.95**. The formal option, and the one that works if the event has a dress code.

What we used: 497 over 487 for the day, 493 over 489 for the evening. Worn closed, both coats hide the corset completely — which defeats the purpose of buying one.

4. Head and eyes finish it

In one line: the corset sets the body, the hat sets the decade, the goggles set the genre.

- Steampunk Aviator Goggles — Retro Motorcycle Windproof [https://steamgears.eu/go/475/] — **$24.95**
- Steampunk Top Hat with Removable Goggles — Black [https://steamgears.eu/go/481/] — **$34.95**
- Gothic Bowler Top Hat with Goggles [https://steamgears.eu/go/485/] — **$39.95**

What we used: goggles on the hat band, not over the eyes. On the brown lace-up a bowler reads more "workshop"; on the silver overbust a top hat reads more "salon".

5. The printed layer, for after the event

In one line: the piece you keep wearing on a Tuesday is the one worth adding last.

Clockwork Heart — Gothic Romance Hoodie [https://steamgears.eu/go/411/] — **$49.95**, worn over the brown corset and under the coat.

Complete this look — four outfits

Look	Pieces	Total
The workshop	487 corset, 497 coat, 475 goggles	$109.85
The salon	489 corset, 493 tailcoat, 481 hat	$159.85
The inventor	491 corset, 411 hoodie, 485 bowler	$154.85
The everyday	487 corset, 567 tee	$71.90

Budget table — ten pieces

#	Piece	Price
1	Victorian Lace-Up Corset Top — Brown	$44.95
2	Steampunk Overbust Corset — Leather Lace-Up Burlesque	$59.95
3	Gothic PU Leather Overbust Corset — Silver	$64.95
4	Steampunk Aviator Goggles — Retro Motorcycle Windproof	$24.95
5	Steampunk Top Hat with Removable Goggles — Black	$34.95
6	Gothic Bowler Top Hat with Goggles	$39.95
7	Medieval Assassin Coat — Gothic Split Jacket	$39.95
8	Wine Red Velvet Tailcoat — Victorian Frock Coat	$64.95
9	Clockwork Heart — Gothic Romance Hoodie	$49.95
10	The Clockwork Seer — Tarot Witchy Tee	$26.95
	Total for all ten	$451.50

FAQ

How do I know which corset size to order? Use the size chart on the product page, not your usual clothing size. A corset is fitted to the ribcage and the waist; if you are between two sizes on the overbust, take the larger one — the lacing can tighten, it cannot create room.

Can I wear a steampunk corset all day? With the brown lace-up, yes: it is soft-structured and is designed to go over clothes. The two overbusts are evening pieces — fine for six hours, not for a working day.

What do I wear underneath? A thin cotton layer: a tee under the lace-up top, a fitted camisole under the overbusts. Avoid seams across the waist and avoid loose fabric, which bunches under lacing.

Does a corset work without a coat? It can, but the coat is what makes the outfit read as clothing rather than as underwear. If you only buy two things, buy a corset and the split coat.

Can I wear the silver corset with brass goggles? Yes — mixed metals are period-correct for a workshop look and less so for a formal one. Match the hat to the corset's metal if you want the outfit to look deliberate.

What is the cheapest complete look here? $71.90: the brown lace-up corset at $44.95 and the tarot tee at $26.95. Goggles at $24.95 make it $96.85 and turn it into a costume.

Which guide should I read next? The women's steampunk essentials [https://steamgears.eu/womens-steampunk-essentials/] covers the same pieces in a ten-item wardrobe, and the steampunk costumes hub [https://steamgears.eu/steampunk-costumes/] has the character-by-character versions.

How do returns work? EU consumers have 14 days to withdraw from the purchase. Check the return page before ordering if the fit matters — and it does with a corset.

Read next — the four-guide cluster

In one line: these four guides share one wardrobe, so each links the others instead of repeating them.

- Men's steampunk costume essentials [https://steamgears.eu/mens-steampunk-costume-essentials/] — ten pieces that read as one outfit, from goggles to print.
- Steampunk clothing at three budgets [https://steamgears.eu/steampunk-clothing-three-budgets/] — what the three tiers actually buy, and which pieces survive the event.
- Women's steampunk essentials [https://steamgears.eu/womens-steampunk-essentials/] — the same ten-piece method with corset, coat and hat.

The hub, steampunk costumes [https://steamgears.eu/steampunk-costumes/], lists the capsules all four belong to.

Publishing notes

1. New page, no existing post ID: create it with the slug above, paste the copy, and add two own photos (one full-length with coat, one detail of the lacing).
2. Rank Math title/meta as above; HowTo + FAQPage schema matching the eight questions 1:1.
3. Do not change the `/go/<id>/` links to plain product URLs — they are the tracking path, and S1.5 depends on them.

Hvad der ikke kunne skrives, og hvorfor

- **Vest-guiden** (brief 24.–26/10, prio 14): butikken har ingen vest. Uden et produkt kan guiden ikke opfylde kravet om mindst ét `/go/<id>/`-link, og en guide uden købsvej er den slags trafik S1.5 kalder en lækage.
- **Boots & spats** (brief 31/10, id 293): samme problem — ingen sko i kataloget.
- **"Under $100"** (brief 31/10): dækket af guides-2026-11-03.md guide 2, hvor $50- og $120-tieren tilsammen beskriver netop det budget. En selvstændig side ville være en nær-dublet, som kvalitetsgaten i pluginnet selv ville flagge.

Verifikation

`tools/guide_check.py` kontrollerer også denne guide: titel ≤ 62 tegn, meta 140–155, ét H1, mindst 800 ord, mindst to egne guides og hub, mindst fire FAQ-spørgsmål, ingen pladsholdere, og at hvert `/go/<id>/` og hvert `$beløb` findes i ID-mappingen eller kan regnes efter fra pristabellen.
