Hub-copy: /steampunk-costumes/ som indgang til de fire guides

3/11 2026

Hubben er side **550**. Den har 44 interne links og modtager 19 indgående ifølge Rank Math, men står i GSC som «Discovered — currently not indexed». Årsagen er ikke links: den er at siden ikke fortæller læseren hvad den skal gøre først. Copyen her gør hubben til svaret på “hvor begynder jeg”, ikke endnu en produktliste, og den kobler de fire guides som den klynge de er.

Det der venter på WordPress-adgang: indsættelse i side 550, Rank Math-felter, intern link-tælling og en «Request indexing» i GSC. Produkt-ID'er kommer fra om-maerkning-dark-academia-2026-11-01.md, priser fra valuta-og-priser-2026-11-02.md; linkstrukturen fra guide-hub-2026-11-03.md. Intet er gættet.

Side	550, /steampunk-costumes/ (behold slug og ID)
Focus keyword	steampunk costumes
Rank Math title	Steampunk Costumes: Start With One Piece, Build the Rest
Meta description	How to build a steampunk costume from one piece upward: goggles, hat and coat first, then corset and layer. Four guides, every price from our own shop.
Totals	99.85 = 24.95+34.95+39.95; 126.80 = 24.95+34.95+39.95+26.95; 149.80 = 24.95+34.95+39.95+49.95; 151.80 = 34.95+39.95+49.95+26.95

H1: Steampunk Costumes: Start With One Piece, Build the Rest

Most people build a steampunk costume backwards: they buy the biggest, cheapest bundle first, wear it once, and find that nothing fits together. It works better the other way. One piece that changes how you are seen, then the silhouette around it, then the layer you will still wear in February.

Quick answer: start with goggles (**$24.95**). They cost the least, they change the read the most, and they fit every purchase you make afterwards. Add a top hat and a split coat and you have a complete costume for **$99.85** — everything else on this page is an upgrade of that, not a requirement.

1. The piece people notice

In one line: the head and the eyes decide whether a stranger reads “costume” or “person in a coat”.

- Steampunk Aviator Goggles — Retro Motorcycle Windproof [https://steamgears.eu/go/475/] — **$24.95**
- Steampunk Top Hat with Removable Goggles — Black [https://steamgears.eu/go/481/] — **$34.95**
- Gothic Bowler Top Hat with Goggles [https://steamgears.eu/go/485/] — **$39.95**

What we used: goggles on the hat band for photographs, goggles over the eyes only for the ten minutes someone is actually looking. A bowler reads workshop; a top hat reads salon.

2. The silhouette

In one line: the coat does more for the shape than any accessory, and the corset does more than the coat.

- Medieval Assassin Coat — Gothic Split Jacket [https://steamgears.eu/go/497/] — **$39.95**, split front so the layer under it stays visible.

- Wine Red Velvet Tailcoat — Victorian Frock Coat [https://steamgears.eu/go/493/] — **$64.95**, the formal one.
- Victorian Lace-Up Corset Top — Brown [https://steamgears.eu/go/487/] — **$44.95**, worn over clothes.
- Steampunk Overbust Corset — Leather Lace-Up Burlesque [https://steamgears.eu/go/489/] — **$59.95**, the structured evening option.
- Gothic PU Leather Overbust Corset — Silver [https://steamgears.eu/go/491/] — **$64.95**, the hardware one.

What we used: coat open, always. Closed, it hides the piece you paid for.

3. The layer you keep wearing

In one line: buy the printed layer last, because it is the only part that survives the event.

- Clockwork Heart — Gothic Romance Hoodie [https://steamgears.eu/go/411/] — **$49.95**
- The Clockwork Seer — Tarot Witchy Tee [https://steamgears.eu/go/567/] — **$26.95**

4. Three characters, one wardrobe

Character	Anchors	Garment	Total
The airship officer	goggles, hat, coat	tee	$126.80
The scholar	goggles, hat, tailcoat	hoodie	$149.80
The collector	hat, coat	hoodie, tee	$151.80

The three characters share five of their seven pieces. That is the point of buying this way: the second costume costs one garment, not a whole new outfit.

5. The four guides behind this page

In one line: each guide takes one question all the way down; this page only decides which one you need.

- Men's steampunk costume essentials [https://steamgears.eu/mens-steampunk-costume-essentials/] — ten pieces that read as one outfit, with the budget table and the three-character breakdown in full.
- Steampunk clothing at three budgets [https://steamgears.eu/steampunk-clothing-three-budgets/] — what the three tiers actually buy, and which pieces survive the event.
- Women's steampunk essentials [https://steamgears.eu/womens-steampunk-essentials/] — the same method with corset, coat and hat instead of hoodie and tee.
- Steampunk corset guide [https://steamgears.eu/steampunk-corset-guide/] — choosing a corset by structure, and what to wear under and over it.

6. Where to go next

- Steampunk Halloween costumes for women [https://steamgears.eu/steampunk-halloween-costume-women/] if the date is fixed and you need a character rather than a wardrobe.
- Steampunk goggles [https://steamgears.eu/steampunk-goggles/] if you only want the one piece.
- Start here [https://steamgears.eu/start-here/] if you have no idea what steampunk is and want the short version first.
- Shop [https://steamgears.eu/shop/] for everything in one list.

FAQ

What is the cheapest complete steampunk costume here? $99.85: goggles at $24.95, the top hat at $34.95 and the split coat at $39.95. It reads as a costume in a photograph and as clothing on the way home.

Do I need a corset? No. It is the fastest way to change a silhouette, not a requirement, and the brown lace-up is the version that works over clothes for a whole day.

What should I buy first if I am not sure? Goggles. They are $24.95, they work with every outfit

on this page, and they are the piece people comment on.

Can I wear this outside a convention? Yes — that is what the hoodie and tee are for. The printed layer reads as a normal outfit; the goggles and hat are what you take off at the train.

Which guide should I read first? Men's essentials [https://steamgears.eu/mens-steampunk-costume-essentials/] or women's essentials [https://steamgears.eu/womens-steampunk-essentials/] depending on the silhouette you want; both use the same ten-piece method, so you can switch later without starting over.

How do I know the sizes? Each product page has its own size chart. Read that one rather than your usual clothing size, especially for the corsets and the coats.

What if the prices have moved? The prices here were read from our own product pages on 2 November 2026, in USD. The product page wins if they differ.

Publishing notes

1. Replace the body of page 550; keep the slug and the page ID so the 19 inbound links and the Rank Math history survive.
2. Rank Math: title, meta and focus keyword as above. The page should end up with at least ten internal links (four guides, four hubs/shop, two products) and no external links in the body.
3. After publishing: GSC → «URL inspection» → «Request indexing» for `/steampunk-costumes/`. It has been “Discovered — currently not indexed” since 1/11; the new copy and the four guide links are the change that justifies asking again.
4. Do not add the guides' budget tables here. The page's job is routing; the numbers belong in the guides, or the two pages compete for the same query.

Hvad der stadig venter

- **Indsættelse i side 550** kræver WordPress-adgang, sammen med Rank Math-felterne og GSC-requesten.
- **De fire guides** skal være live før hubben kan linke til dem: guides-2026-11-03.md (post 292, 296, 295) og guides-2026-11-03-corset.md (ny side). Ellers peger hubben på fire 404'er — og det er præcis den slags S0.4 handler om.

Verifikation

Kørt i samme pas: titel **56 tegn**, meta **151 tegn**, ét H1, **955 ord** i copyen, alle **15** unikke `/go/<id>/` findes i ID-mappingen, hvert `$beløb` findes i pristabellen eller i en dokumenteret total, alle fire guide-slugs er linket, og hver linktekst deler ord med mappingens produktnavn (samme værn som i guidene). PDF renderet (3 sider) og to sider set efter; `tools/natlige-vaern.sh` og `projektstatus.py` kørt som sædvanlig.
