Indholds-score-formel (gennemsigtig, max 100): Længde ≥1200 ord=25 / 800-1199=15 / 300-799=8 / <300=0 · unikke interne links ≥25=25 / 15-24=15 / <15=5 · billeder ≥6=25 / 2-5=15 / <2=0 · links til /product/ ≥10=25 / 3-9=15 / 1-2=8 / 0=0. Kategori-/shopsider bedømes primært på grid (produktlinks).

Anbefalinger (talbaseret)

1. **Soft-404-fix (5 URL'er)** — interne links peger på gamle slugs; ret til /product-category/steampunk-goggles/, /product-category/posters-prints/ og aktuelle produktslugs. Kræver godkendelse (URLs) pr. v2.1.
2. **Sitemap 404** — /product/airship-blueprint-poster/ (draft id 29) ligger i sitemap og returnerer 404; udelad fra sitemap eller udgiv.
3. **LCP** — 16/21 sider ≥13 s mobil; unused JS ~478 KiB på tværs; produktside worst (perf 26, LCP 22,3 s, TBT 2.970 ms). W3TC-minify virker stadig ikke på Simply.
4. **Server 508 under last** — 13 URL'er fik 508/503 under samtidig crawl; potentielt checkout- og indexering-risiko ved trafikspidser.
5. **/steampunk-accessories/** — 35 impressions, pos 16,0, 0 produktlinks: højeste klikbare gevinst pr. redigering.
6. **/casual-steampunk-outfits/** og hub — 0 produktlinks + lavest PSI (39/52).
